TCR for Project Starschiners Testare Manuala

Introduction

The project objective is to thoroughly test the functionality and usability of the Starschiners.ro website, ensuring that all the identified features, such as login, logout, password reset, social sign-in, search, add to cart, and checkout, are working as intended, meeting quality standards, and providing a seamless user experience. Additionally, the project aims to identify and report any issues, bugs, or security vulnerabilities for timely resolution and improvement of the website.

In Scope

US ID	Title	Description
PSTM-43	Search Bar functionality	As a Logged- in User I want to be able to search through the Starschiners website so that I can find the clothing I'm looking for.
PSTM-55	Add to cart Functionality	As a customer, I want to be able to add and remove products from shopping cart so that I can later proceed them
PSTM-62	Checkout Functionality	As a customer I want the checkout process to be fast and efficient, with clear instructions and minimal steps so that I complete my purchase quickly and easily

Out of scope

US ID	Title	Description
PSTM-2	Sign up Functionality	As a unregistered user I want to be able to register to  <u>StarShinerS - Magazin Online Haine - starshiners.ro</u> so that I can sign up my register account.
PSTM-13	Log-in Functionality	As a Logged-out user I want to be able to sign in to Starshiners website so that I can find access my personal profile
PSTM-21	Sign in with Facebook	As a Logged-out user I want to use my Facebook login credentials so that I can access my account quicker
PSTM-25	Reset Password Functionality	As a Logged-in user, I want to reset my password so that I can use a new one for Starschiners web site.

Test Environments

For This project we used the following test environments:

Hardware Infrastructure	<ul style="list-style-type: none">• network devices• storage• systems
Software and Middleware	<ul style="list-style-type: none">• operating systems• databases• web servers

Securityound 2 bugs	<ul style="list-style-type: none"> • authentication mechanisms • access controls • encryption
Configuration Management	<ul style="list-style-type: none"> • version control • configuration management

Issues

This document is appliable for sprint 2. We worked with:

- 3 User Stories
- 9 test cases

After executing the test cases we do not found any bugs
