# TCR for Proiect Starschiners Testare Manuala

## Introduction

The project objective is to thoroughly test the functionality and usability of the Starschiners.ro website, ensuring that all the identified features, such as login, logout, password reset, social sign-in, search, add to cart, and checkout, are working as intended, meeting quality standards, and providing a seamless user experience. Additionally, the project aims to identify and report any issues, bugs, or security vulnerabilities for timely resolution and improvement of the website.

## In Scope

US ID	Title	Description
PSTM-2	Sign up Functionality	As a unregistered user I want to be able to register to <a href="#">🌟StarShinerS - Magazin Online Haine - starshiners.ro</a> so that I can sign up my register account.
PSTM-13	Log-in Functionality	As a Logged-out user I want to be able to sign in to Starshiners website so that I can find access my personal profile
PSTM-21	Sign in with Facebook	As a Logged-out user I want to use my Facebook login credentials so that I can access my account quicker
PSTM-25	Reset Password Functionality	As a Logged-in user, I want to reset my password so that I can use a new one for Starschiners web site.

## Out of Scope

US ID	Title	Description
PSTM-43	Search Bar functionality	As a Logged- in User I want to be able to search through the S tarschiners website so that I can find the clothing I'm looking for.
PSTM-55	Add to cart Functionality	As a customer, I want to be able to add and remove products from shopping cart so that I can later proceed them
PSTM-62	Checkout Functionality	As a costumer I want the checkout process to be fast and efficient, with clear instructions and minimal steps so that I complete my purchase quickly and easily

## Test Environments

For This project we used the following test environments:

Hardware Infrastructure	<ul style="list-style-type: none"><li>• network devices</li><li>• storage</li><li>• systems</li></ul>
Software and Middleware	<ul style="list-style-type: none"><li>• operating systems</li><li>• databases</li><li>• web servers</li></ul>
Security	<ul style="list-style-type: none"><li>• authentication mechanisms</li><li>• access controls</li><li>• encryption</li></ul>
Configuration Management	<ul style="list-style-type: none"><li>• version control</li><li>• configuration management</li></ul>

## **Issues**

This Document is applicable for Sprint 1 and we worked with:

- 4 User Stories
- 10 Test Cases

After executing the test cases We found 2 bugs:

PSTM-42 - User is not able to connect with Facebook

PSTM-41 - The password don't meet the minimum password strength
